1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 12, 23 and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. More particularly, as was indicated in the initial Office Action these claims should each be written using Markush language.
3. Claims 23-25 are again rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 8,20 and 34 of U.S. Patent No. 6,761,969 to Li et al in view of Dronzek '242, substantially for the reasons set forth in Paragraph No. 12 of Paper No. 090205, together with the following additional observations. More particularly, the Examiner notes applicants' revision of their earlier position that pending claims 22-25 were not pending in the parent application (which matured into the Li et al '969 patent), as it now clearly appears that claim 22 was in fact the equivalent (although in different form) to nonelected claim 17 in the parent application. With respect to the remaining claims of this grouping, however, claims 24 and 25 each appear to be new claims having no equivalents in the parent application, but as to claim 23 it is noted that claim 67 of the parent case which was in the same grouping as nonelected claim 17 initially appears to be in a similar situation. However, upon careful inspection it is noted that claim 67 refers back to the water based adhesive in its independent claim (claim 58), which however appears to have been an inadvertent oversight, as no adhesive limitation is present in claim 58. Accordingly the rejection

(which can be overcome by a proper Terminal Disclaimer) must be repeated for claims 23-25.

4. Claims 1-11, 14-22 are allowed.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
